

“Hooray for Training!”

Staff Development Programs Even Employees Will Love!!

Why is it that we spend so much time developing training and no one wants to attend? This session reviews the important things to keep in mind to create educational staff development sessions that employees will engage and motivate your team members!

In this session, you will learn:

- What Staff Development programs should (and should not!) look like
- The different ways people like to learn and suggestions for each
- Low-cost and no-cost ways to get staff excited about learning
- How to use PowerPoint to increase the retention of information
- Ways to “Train Like A Ninja!”

Let our Leadership Expert “open the door” to a better understanding of Staff Development Programming with a 60-minute or 90-minute session on this topic!
